

Pre-school institution Vrtec Šentjur is a public institution founded by the Municipality of Šentjur. We operate in 11 units, with over 40 groups, where approximately 750 children are included and about 130 professional and technical staff take care of them.

In Municipality of Šentjur pre-school education was founded in 1966.

In pre-school institution Vrtec Šentjur we strive for a friendly and tidy environment, which enables a democratic style of communication and creativity of us all.

**UNDERSTANDING, TOLERANCE AND FRIENDSHIP ARE THE BASIS OF OUR EDUCATIONAL WORK.**

We respect and take care of our environment as well the cultural traditions of the environment we live in.

These are the guidelines that we follow in our pre-school institution Vrtec Šentjur.

The starting point of all the activities are CHILDREN with their needs, the way they are experiencing and learning about the world, and experiential learning. These are the VALUES of our pre-school institution and as such the main guidelines how to work with children in cooperation with parents and our mutual relations.

This is how we are realizing **OUR MISSION STATEMENT**, which reads as follows:

"The development and wellbeing of every child, parent and employee" and the VISION of our pre-school institution Vrtec Šentjur.

**"VRTEC ŠENTJUR IS LIKE HOME ...**
